Safety Cleaning Dip Tanks

Self-closing dip tanks provide a safe, portable solution to parts cleaning.

- Clean parts where the volume of work does not warrant a larger rinse tank
- Use dip tanks for singular, larger piece parts
- Tanks and baskets constructed of sturdy, 24-gauge coated steel with powdercoat finish for chemical resistance
- Tank cover stays open for convenient access; self-closing mechanism and fusible link melts at 74°C to snap the cover shut in case of fire
- Standard steel dip tanks are FM-approved and certified by TÜV
