

ASTRALPOOL – pH MINUS

Lowers pH values greater than 7,6

- Improves bathing comfort
- A well adjusted pH optimizes water disinfection
- Ideal for pump dosing

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	 Immediate		-0,2 pH 325ml / 10m ³

PROPERTIES

Appearance	Transparent liquid
Colour	Colourless
Density (20°C)	1,097 – 1,107 g/cm. ³
pH (water solution 10%)	0

CHARACTERISTICS

Product in liquid form to adjust the pH of the water swimming pools when this is higher than 7.6. It is essential for optimum treatment of the water and to avoid the discomfort to the skin or eyes of bathers which an imbalance in the pH can cause.

INSTRUCTIONS FOR USE

The pH level of the water must be between 7,2 and 7,6 and its control shall be carried out daily by means of a pH test kit.

Specially formulated product for being added to swimming pool water by means of automatic equipment for pH regulation and control. It must be poured into the filtration circuit directly from the original package.

DOSAGE

Add 3,25L of product to reduce the pH of 100m³ of water by 0,2 units.

These doses are the ones suggested and can be modified according to the own characteristics of every swimming pool, climate, etc.
