

ASTRALPOOL – pH PLUS

Increases pH values lower than 7,2

- Improves bathing comfort
- A well adjusted pH optimizes water disinfection

GRANULATED	MEASURING CUP	EFFICACY	ALL TYPES OF POOLS	DOSAGE
		 Immediate		+0,2 pH 150g / 10m ³

PROPERTIES

Appearance	Crystalline solid
Colour	White
Apparent specific density	1,0 kg/dm. ³
pH (water solution 0,4%)	11,17
Solubility (20°C)	215 g./L

CHARACTERISTICS

Granulated compound, which increases the pH level of the water when it is lower than 7,2. It is essential for proper water treatment, ensuring that bathers' skin is not irritated by a pH imbalance.

INSTRUCTIONS FOR USE

The perfect pH balance should be between 7,2 –7,6. The pH level is easily determined by using a pH and chlorine test kit and should be carried out twice daily.

If the pH is lower than 7,2, pour the necessary amount of product evenly throughout the surface of the swimming pool.

DOSAGE

Add 1,5 Kg. of product to increase the pH by 0,2 units for a 100 m³ of water.

These doses are the ones suggested and can be modified according to the own characteristics of every swimming pool, climate, etc.
