Colour	Colourless
Density 20°	1,26 – 1,30 g/cm. ³
pH (water solution 10%)	14

CHARACTERISTICS

Product in liquid form to adjust the pH of the water swimming pools when this is lower than 7.2. It is essential for optimum treatment of the water and to avoid the discomfort to the skin or eyes of bathers which an imbalance in the pH can cause.

INSTRUCTIONS FOR USE

The pH level of the water must be between 7,2 and 7,6 and its control shall be carried out daily by means of a pH test kit.

ASTRALPOOL - 25 pH Plus is a specially formulated product which has to be added to the swimming pool water by means of automatic equipment for pH regulation and control.

DOSAGE

Add 3,5 L. of product to increase the pH of 100 m³ of water by 0,2 units.

These doses are the ones suggested and can be modified according to the own characteristics of every swimming pool, climate, etc.
