

SDM Sanitizer Dispenser Mat

Absorbing mat to prevent hand sanitizer from damaging floors

Logo Matting - Design Mats

SDM Sanitizer Dispenser Mat

The Sanitizer Dispenser Mat is the ideal, matting solution to prevent chemical substances like hand alcohol from damaging your floor. The mats design reminds employees and customers to follow sanitation norms while protecting the floor.

- Functional mat can be placed under hand sanitizer poles and dispensers to protect surroundings from damaging substances
- Absorbent yarn ensures liquid retention from hand sanitizers such as isopropyl alcohol and gels
- Slip resistant vinyl backing prevents chemicals from leeching into and damaging floor beneath
- Hand sanitizer symbol to encourage proper hand hygiene

Recommended use

- Indoor
- For placement inside entrances of offices, shops, restaurants, grocery shops, bakeries, specialty stores.
- Light duty
